Introduction

Report Structure

The Annual Report is organized in accordance with the departmental appropriation structure, which reflects the department's authorized vote approved by the Legislative Assembly. The report includes information at the main and sub-appropriation levels, including program descriptions, financial performance and variances, as well as a five-year historical table detailing departmental expenditures.

Overview

The benefits administration program area of Labour Relations Services, Treasury Board Secretariat, is responsible for providing central administrative services to government-wide employee benefits and insurance programs in accordance with collective agreements, legislation and personnel policies. Negotiated plans include the Ambulance and Hospital Semi-Private (AHSP), Dental, Vision, Prescription Drug and Long Term Disability plans as well as the Health Spending Account. The branch manages the payment and recovery of Workers Compensation from government departments and certain agencies and compiles financial information for statutory benefit and insurance programs including the Civil Service Superannuation Plan, Canada Pension Plan, Group Life Insurance, Employment Insurance and the Levy for Health and Post-Secondary Education.

There are two benefit categories:

1) Non-Recoverable, including Superannuation, Workers Compensation (central costs) and other salary related benefits; and

2) Recoverable, including Canada Pension Plan, Employment Insurance, Civil Service Group Life Insurance, Workers Compensation (departmental costs), Dental, Long Term Disability, Ambulance and Hospital Semi-Private, Vision Care and Prescription Drug Plans and the Health Spending Account, as well as the Levy for Health and Post-Secondary Education and Pension Liability for New Employees. All costs for recoverable benefits incurred by Employee Pensions and Other Costs are recovered from departments based on either actual salaries paid to employees or on the actual benefit premium paid. Within the recoverable category, benefits can also be divided into two classifications: external, premium-based and self-insured.

PART I
Employee Pensions and Other Costs

Employee Pensions and Other Costs

A. Non-Recoverable Benefits

Civil Service Superannuation Plan

The Civil Service Superannuation Plan provides funding for the employer's share (50%) of pensions paid to retired civil servants in 2005/06, including the annual cost of living increase. Costs consist of payments that were made to 8,787 pensioners.

In addition to this funding, the province has allocated funds in its annual Budget to reduce the annual accumulated pension liability by matching the annual pension contribution for all civil servants hired from April 1, 2000 onward and allocating a portion of a legislated provision for debt/pension repayment toward the accumulated pension liability related to existing employees. In 2005/06, $85.5 million of the $110.5 million debt retirement payment was allocated to the pension liability. This additional funding is not included in the Estimates of Expenditure for the Operating Fund but is recorded as a transfer from the Debt Retirement Fund. Effective October 1, 2002, the employer's cost of matching pension contributions for new employees hired is the responsibility of the employing department as noted under "Pension Liability for New Employees" outlined on page 16.

Expenditures by Sub-Appropriation	Actual 2005/06 $(000s)	Estimate 2005/06 $(000s)	Variance Over/ (Under) $(000s)	Expl. No.
06-1a Civil Service Superannuation Plan	69,380.3	67,740.3	1,640.0	1

1. *Costs associated with the Civil Service Superannuation Plan were higher than budget primarily due to an increase in the level of retirements, terminations, reciprocal transfers, marital breakdowns and employee deaths.*

Other Salary Related Benefits

This appropriation provides funding for recording of the annual increase/decrease in the liabilities for severance, vacation and overtime entitlements for employees who have met the service requirements stated in the collective agreement and are still members of the civil service. Beginning in the 2004/05 fiscal year, the liability associated with employees receiving long term disability and workers compensation benefits has also been recorded.

Expenditures by Sub-Appropriation	Actual 2005/06 $(000s)	Estimate 2005/06 * $(000s)	Variance Over/ (Under) $(000s)	Expl. No.
06-1b Other Salary Related Benefits	8,472.9	6,784.3	1,688.6	1

* The 2005/06 Estimate includes an allocation of $284.3 from Appropriation 26-5, Internal Reform, Workforce Adjustment and General Salary Increases, to provide for unbudgeted costs associated with workers compensation liability and changes in the severance liability as a result of a recent actuarial valuation.

1. *Other Salary Related Benefits were higher than budget. The over-expenditure mainly relates to the cost of recording the liability associated with workers compensation offset by lower than anticipated costs associated with vacation, overtime, other leaves and long term disability.*

Workers Compensation Board

The Workers Compensation Board (WCB) provides funding for the annual payments to government employees injured at work as assessed by the WCB as well as fees paid to WCB for administration of the compensati plan. The annual payments are recovered from other departments in respect of their employees.

The province is self-insured with respect to Workers Compensation payments, although the WCB provides administrative and assessment services.

Explanations:

1. The variance for Civil Service Superannuation Plan reflects increased pension benefits paid in 2005/06 for retirements, terminating employees, marital breakdowns, reciprocal transfers and employee deaths, including the annual cost of living increase.

2. The increase in Other Salary Benefits in 2005/06 was mainly due to increases in vacation and workers compensation liabilities partially offset by the one time cost of transitioning employees from Driver and Vehicle Licencing (DVL) to Manitoba Public Insurance (MPI) in 2004/05.

Employee Pensions and Other Costs
Expenditures by Sub-Appropriation
for the fiscal year ended March 31, 2006

Explanations: (continued)

3. The Pension Liability for New Employees account reflects departments' contributions, which represent the employer's cost of matching pension contributions made by civil servants hired on or after October 1, 2002. The variance reflects more new civil servants being hired replacing long-term employees as they retire or resign.

4. The increase in 2005/06 costs associated with the Health Spending Account primarily reflects the annualization of the benefit plan, which came into effect January 1, 2005, and an increase in the maximum claim amounts effective January 1, 2006.
